

Use this link to access the records in Airtable. All events are searchable by number within Airtable.

Documents available for download show that the Walz administration knowingly:

1. Ignored an introduction made by the Minnesota Chamber of Commerce six months BEFORE Covid.
 - o See events #77 and #80
2. Collaborated with Apple and Google to deploy the very same technology this innovator had disclosed in patents from 2008-2010 (a \$40 million value, plus ongoing damages in terms of app store dominance, which continue to benefit Apple & Google).
 - o See events #109 and #246 which establish the \$40 million damages (the app was used for 2.5 years)
3. Overlooked the fact that Apple & Google had a ten-year history of subverting this Minnesotan innovator on this technology.
 - o See events #42 and #158
4. Conducted official state business using a communication system controlled by Google (G-mail) - unsearchable by the state.
 - o See events #132, #304, #120 and #126
5. Introduced Google reps to the state CIO (via Gmail) on the same day the innovator was sent on a wild goose chase for a state contract.
 - o See events #132 and #133
6. Former Google exec in state government (? redacted) asked someone (also redacted), "Need a connection directly into Google?"
 - o See event #130
7. Used state resources to contribute to the core Google Apple framework.
 - o See event #177
8. Gave a no-bid contract to a brand-new startup out of MIT Media Lab (whose secret ties to Jeffrey Epstein had just recently been revealed).
 - o See events #333, #84, #88 and #128
9. Sent procurement emails to redacted email address(es).
 - o See event #118 (continued on next page...)

10. Refused (to this day) to provide the agreement(s) between the state and Apple and Google. See events #125, #142, #152, #209, #225, #241, #242, #259, #264, #269, #270 and #271.
11. Threatened to invoke sovereign immunity against this hometown innovator when he requested compensation.
 - See event #300
12. Refused to apologize when the innovator sought a way forward, and told the innovator to halt further communications with the state.
 - See events #280, #298, #300 and #309
